

**March 25, 2011**

**Addendum # 1**

**Newberry County IFB 2011-11**

**Agricultural Building Roof Replacement**

**This addendum clarifies existing conditions and bid requirements. The upper and lower roof was cored at the site visit portion of the prebid meeting. The other items are answers to questions during the prebid meeting.**

- The roof deck provides the slope therefore the insulation board will not have to be tapered.
- The upper roof is membrane over built up roof.
- The parapet coping will be removed and new coping installed.
- The ventilators will be raised to accommodate the new insulation board.
- The inactive vent on the low roof will be cut off below the deck, boarded over and the new roof will run continuous at this location.
- No insulation will be required at the elevator penthouse.
- The building material survey is available and will be posted on the County website.

End of Addendum.
